County Government Revenue Sources for Counties Collecting Sales Tax, FY 2002

Sources of Revenue include all revenues to General, County Highway, and Special Revenue Funds. The percent of revenue by source was calculated for each of the sixty-seven counties with sales tax. Then the average of the 67 counties was computed based on the statistics for the individual counties.

* Other Sources include various fees (such as County Clerk), reimbursements (such as Visual Inspection), interest earnings, grants (such as REAP), and state and federal moneys (such as FEMA).
